Section 4 Progress of the Development Partnership

Please detail the Development Partnership's progress since the last interim claim under the following headings.

a Development Partnership's aims and objectives

The five clusters are now established and links between the development Officers have been formed. The three cross-cutting themes are up and running and we are devoting effort to ensure that issues identified in the last report are overcome. Work now continues on establishing the Partnership and completing the Needs Analysis questionnaires.

There is no change proposed to the clearly set out programmes.

b Equal opportunities

This project has a comprehensive Equal opportunities policy and implementation strategy. It forms a key tenet of the project and is outlined by all involved when meeting new groups for the first time. Given that it was drawn up at the bid stage it is now subject to review and that process has started. At the meeting held at AWEMA with WEFO the suggestion from WEFO that an Equal Opportunity sub group be formed was accepted and this will be discussed at full Partners meeting to be held in September.

c Innovation

Although the concept of action research is not in itself innovative, the range of partners brought together in the Project and the breadth of activity combined in the Clustering and cross-cutting elements has not been evidenced before.

The task now is to drive out effective working of Partners joining together to establish links, assess the issues and problems identified and working with the community groups assist in formulating strategies to support solutions.

It is still a little early to critically assess the level of innovation that will eventually emerge. Some initial findings from the completion of questionnaires seem to be emerging and there may be some common solutions across communities.

d Empowerment

As we are in the forming stage it is still a little early to fully identify the breadth of empowerment but even at this initial point some issues have been identified that may hinder progress. Our task will now be to establish if these are barriers that can be overcome through discussion or whether there are more deep-rooted problems that may need more concentrated intervention.

Notwithstanding these drawbacks it is evident that many communities and community groups have welcomed the initiatives that we have started. Helping the individuals and groups reflect on their needs and develop processes and plans will meet the aim of this element.

There may be patterns emerging of engagement issues among separate communities. It may be that we shall need to address the issue of continuous engagement rather earlier than originally considered. Sustaining initial enthusiasm across the length of the delivery phase was always going to be a challenge but the reality of continuance across such a diverse group of communities may see tensions affecting involvement notwithstanding the close connection between Development Officers and their community audience.

e Transnational work

This visit will now inform the work in preparation for the Transnational Conference timetabled for November. To this end a draft Agenda has been discussed at both national and trans national level and suitable venues discussed. Target attendance numbers have been selected and this will guide venue choice. In the meanwhile the secretariat from the Finland Partner is distributing the work required of all Partners in preparation for the November Conference,

f Monitoring and evaluation

The Article 4 Team visit concluded with a small number of points requiring attention and this will be the subject of a detailed response to timetable.

The Interim evaluation data collection is due to start now and will be continuing through the summer.

Following the meeting held with WEFO it has been agreed that a new process for recruiting an external evaluator is necessary. This will be subject to a new and revised procurement process with guidance from WCVA. AWEMA is seeking a meeting with WCVA to move this forward.
